LENYO Mobile Prevention

Convenient bioregulation therapy in the office, at home or on-the-go

Bioregulation Therapy (BRT) is a unique, holistic and highly effective modality that uses biofeedback and advanced pulsed electromagnetic field (PEMF) technology to improve biological communications at the cellular level. Efficient cellular communication is critical to supporting the body's adaptation and self-regulation processes, which in turn, help the body to heal naturally, deal with stress and restore inner balance.

BRT can be used on its own, or alongside other alternative and conventional therapies, to address the physical and emotional issues surrounding addiction and recovery, as well as other related health issues – both simple and complex. BRT can also be used preventively to support long-term recovery and overall wellbeing.

Benefits of BRT

- Detoxifies the body
- Improves digestion and the availability of nutrients to the cells from the bloodstream
- Strengthens the immune system
- Increases relaxation and sleep quality
- Reduces muscle tension and emotional anxiety
- Balances and calms
- Improves therapy receptiveness

State-of-the-art mobile BRT device

The LENYO Prevention mobile BRT device can be used by adults, seniors and children to help strengthen the immune system, normalize system levels, support natural healing, and maintain overall wellness.

The Mobile Prevention is convenient and discreet. It can be worn in a lanyard pouch (provided), in a wrap-around waist-belt, under a sweater or in a pocket.

Lightweight and easy to operate, the Mobile Prevention offers 14 automated BRT programs and comes in different therapy pad sets including waist-belt, small or medium.

Mobile Prevention Programs

- Anti-Aging
- Relax
- Digestion
- Joints
- Aches
- Sleep
- Injury
- Therapy Resistance
- Immune

DEVICE

SMALL PAD

9.4" W x 11.8" L • 24 cm x 30 cm

MEDIUM PAD

12" W x 21" L • 31 cm x 53 cm

WAIST BELT

LANYARD

TECHNICAL INFORMATION

Device name	LENYO Mobile Prevention
Number of programs	14
Number of users	1
Frequency	1Hz-200kHz (-3dB)
Maximum intensity	10 MicroTesla (0.1 Gauss) peak-to-peak
Power supply	(2) AA, 1.5 V batteries
Relative humidity	Max. 80%
Size	2.6" W x 3.6" L x .82" D(66 mm x 92 mm x 21 mm)
Weight	.18 lb. • (85 g)
Operating temp.	41° F - 104° F (+5 C° - +40 C°)
Storage temp.	-4° F - 122° F (-20 C° - +50 C°)
Safety class	Class1 Therapy Device
Manufactured in	European Union

ABOUT LENYOSYS. A leader in bioregulation technology and devices, Lenyosys is a division of Nestatek Inc., headquartered in Fort Lauderdale, FL. Lenyosys provides advanced Bioregulation Therapy (BRT) devices and solutions to professional practitioners in the medical, wellness, sports, enterprise, educational and veterinarian fields, as well as home-use products to the general public. A unique communication- and energy-focused approach to health and wellness, BRT combines biofeedback and advanced pulsed electromagnetic field signaling (PEMF) to help improve biological communications at the cellular level – ultimately helping the body to restore natural regulation and healing activities. The LENYO line of BRT products includes professional, home and mobile devices. For more information, visit www.lenyosys.com.

LENYO BRT devices have not been evaluated by The Food and Drug Administration (FDA). They are not meant to diagnose, treat, cure or prevent any disease. They do provide general benefits recognized for biofeedback and PEMF-based therapy devices. Individuals suffering from any disease or illness should consult with a physician or healthcare professional before using any BRT device.
