LENYO Mobile BRT Devices

Convenient bioregulation therapy in the office, at home or on-the-go

Portable, lightweight and easy to operate, the LENYO mobile Bioregulation Therapy (BRT) devices use advanced pulsed electromagnetic field (PEMF) technology to support biological communications at the cellular level – ultimately helping the body to better self-regulate, heal and restore natural balance.

MOBILE LADY

LENYO Lady

The LENYO Lady mobile BRT device supports both the physical and emotional aspects of the female nature, including energy balancing, digestion, circulation, hormone balancing, immune strength, menstrual issues, stress reduction, rejuvenation, and overall relaxation.
