## LENYO Mobile Port

Programmable bioregulation therapy in the office, at home or on-the-go

### BENEFITS OF BRT

- Detoxifies the body
- Improves digestion
- Aids in circulation
- Calms the nervous system
- Increases relaxation
- Strengthens the immune system
- Improves sleep quality
- Helps to reduce the symptoms of environmental toxins
- Reduces muscle tension and emotional anxiety
- Accelerates healing and tissue regeneration
- Promotes focus and mental clarity
- Opens up Meridian and Chakra channels
- Increases therapy receptiveness
- Addresses both physical and psychosomatic concerns

Bioregulation Therapy (BRT) is a unique, holistic and highly effective modality that uses advanced pulsed electromagnetic field (PEMF) technology to improve biological communications at the cellular level. Efficient cellular communication is critical to supporting the body's adaptation and self-regulation processes, which in turn, help the body to heal naturally, deal with stress and restore inner balance.

BRT can be used on its own, or alongside other alternative and conventional therapies, to address physical and emotional issues – both simple and complex. BRT can also be used preventively to support long-term recovery and overall wellbeing.

### State-of-the-art mobile BRT device

The LENYO Mobile Port BRT device can be used by adults, seniors and children. It is convenient, lightweight and easy to use. It can be used under a sweater, fit in a pocket or worn in a lanyard pouch (provided).

Completely programmable, the Mobile Port offers a wide range of automated BRT programs (comprised of subprograms that work together synergistically) and protocols that are designed to address specific areas and functions of the body. Four programs or protocols can be loaded from a Windows PC into the Mobile Port and can be easily changed by simply downloading new ones from the software provided. The Mobile Port also has the ability to create customized protocols using the program database.

### Program examples

The Mobile Port offers standard BRT programs, including:

ANTI-AGING • RELAX • DIGESTION • JOINTS • ACHES • SLEEP  
DETOX SHORT • DETOX LONG • FIBROMYALGIA • CIRCULATION  
LYMPHATIC • INJURY • ELECTROSMOG • RESPIRATION  
ADAPTATION • EXHAUSTION • YIN AND YANG • CONCENTRATION  
THERAPY RESISTANCE

### TECHNICAL INFORMATION

Device name	LENYO Mobile Port
Number of programs	4 sequential programs at one time
Number of users	1
Frequency	1Hz-200kHz (-3dB)
Maximum intensity	10 MicroTesla (0.1 Gauss) peak-to-peak
Power supply	(2) AA, 1.5 V batteries
Relative humidity	Max. 80%
Size	3.9" W x 2.4" L x .80" D (100 mm x 61 mm x 21 mm)
Weight	.22 lb. • (100 g)
Operating temp.	41° F - 104° F (+5 C° - +40 C°)
Storage temp.	-4° F - 122° F (-20 C° - +50 C°)
Safety class	Class1 Therapy Device
Manufactured in	European Union
Antenna	Uses an internal antenna; no pads needed

For more information about BRT and the complete line of LENYO BRT devices, visit [www.lenyosys.com](http://www.lenyosys.com) or email [info@lenyosys.com](mailto:info@lenyosys.com).

**ABOUT LENYOSYS.** A leader in bioregulation technology and devices, Lenyosys is a division of Nestatek Inc., headquartered in Fort Lauderdale, FL. Lenyosys provides advanced Bioregulation Therapy (BRT) devices and solutions to professional practitioners in the medical, wellness, sports, enterprise, educational and veterinarian fields, as well as home-use products to the general public. A unique and innovative approach to health and wellness, BRT combines biofeedback and advanced pulsed electromagnetic field signaling (PEMF) to help improve biological communications at the cellular level – ultimately helping the body to restore natural regulation and healing activities. The LENYO line of BRT products includes professional, home and mobile devices. For more information, visit [www.lenyosys.com](http://www.lenyosys.com).

LENYO BRT devices have not been evaluated by The Food and Drug Administration (FDA). They are not meant to diagnose, treat, cure or prevent any disease. They do provide general benefits recognized for biofeedback and PEMF-based therapy devices. Individuals suffering from any disease or illness should consult with a physician or healthcare professional before using any BRT device.
